

# High Tea

High Tea is the ultimate Neverland experience. The array of finger sandwiches and pastries will delight the senses and have you proclaiming each one is the best you've ever had until you move on to the next. It's an ever-evolving tower of decadence.

We serve only the best clotted Devonshire cream and make almost everything in-house, we even made the towers! As with most in-house items we are proud to offer gluten and dairy omitted versions of our high tea.

### NO SUBSTITUTIONS

Our quest to deliciously accommodate gluten and dairy restrictions necessitates everything be prepared in-house (despite our tiny kitchen), and thus we are left with no extra space or time to make substitutions to menu items.

## *Our Gluten Omitted Products*

At Neverland, all of our 'gluten-omitted' products are made with our proprietary flour blend, which contains: amaranth flour, brown rice flour, potato starch, teff flour, tapioca starch, millet flour, and sorghum flour.

We blend our flours in house and do our utmost to ensure that no cross contamination occurs; however, we are not a gluten-free facility, and as such can offer no guarantees regarding gluten levels. We prefer the term 'gluten omitted', and use it to indicate that there is no gluten in that recipe, and we have done our best to prevent cross contamination.

Any oats that are used in a gluten-free recipe are processed in a wheat-free facility, and are R5 ELISA tested to ensure purity. Our gluten-free breads are not made in-house and are gluten, dairy, soy, and nut-free, but do contain egg whites. Please let any staff member know of any food intolerances, and we will do our best to accommodate them.
