PREMIUM TEAS | 5.5

AHEAD BY A SENCHA-TEA | Green

Sencha is the most popular tea in Japan, prepared by steaming the processed leaves. This Fukamushi Sencha is infused with the subtle flavour of Asian pear for a very elegant cup.

BERGAMINT | Herbal

This may be the best mint tea you've ever tasted! A touch of bergamot, the same citrus that gives Earl Grey its famous flavour, softens the crispness of peppermint and spearmint for our most refreshing cup yet.

BIG CHILL | Herbal

This herbal tisane is a gorgeous blend of ginger, green rooibos, orange peel, chamomile, mint, and fennel. Calming and soothing with enough excitement to keep you awake, even without the caffeine!

RHU-LONG | Oolong

A traditional Chinese tea produced through a process of sun-drying and oxidizing before curling and twisting the leaves. This Formosa Oolong has subtle notes of fresh rhubarb for a complex yet refreshingly smooth cup.

ULTRAVIOLET | Black

This purple tea is sourced directly from Kenya with every effort made to support the local tea farming community. What makes it purple? The same antioxidant found in superfruits like acai, blueberries, and pomegranates.
